

Name: Farhan Ahmed

Role: Senior Full-Stack Developer

Experience: 3.5 Years

Professional Summary: Result-driven Full-Stack Engineer with over 3 years of experience in architecting scalable web applications. Expert in building modular microservices using **NestJS** and managing real-time data layers with **Supabase**. Passionate about "Logic-First" engineering and automated deployment pipelines.

Technical Stack: * **Languages:** TypeScript, JavaScript (ES6+), SQL.

- **Frontend:** React.js, Next.js (**App Router**), Tailwind CSS, Redux Toolkit.
- **Backend:** NestJS, Node.js, Express.
- **Database:** PostgreSQL, **Supabase Auth & Storage**, Redis.
- **DevOps/Cloud:** Docker, GitHub Actions, AWS (S3/EC2), Vercel.

Key Projects: **E-Commerce Microservices:** Developed a high-traffic backend using **NestJS** and **PostgreSQL**, resulting in a 40% improvement in response times.

- **SaaS Dashboard:** Built a real-time analytics portal using **Next.js** and **Supabase**, handling 10k+ concurrent users.
